

Guide For Assessors

Throughout DofE, students need to be keeping a log to evidence the time that they have dedicated to their skill, physical or volunteering activity. A log book can be created electronically through the students eDofE account, or one can be found as a document and printed from the link below titled 'Activity Log'.

<http://www.abbeyparkschool.org.uk/students.php?p=224>

A student should have created a goal so that they can show their progress over time. This could be discussed and agreed with you.

At the end of the time frame, as an assessor you have complete an assessors form. Each student has an 'Assessors Guidance Notes' book for you to read and it contains a report that can be filled out. The student can then take a photo of this and upload it as an assessors report. Or this can be completed electronically at: www.DofE.org/assessor. You will require their participant's ID number.

Can you please:

-understand what the student wants to get out the activity and help them set their goals

-help them with advice, training and supervision as needed

-support and encourage the student while they are undertaking their activity

-be available throughout the time they are doing the activity to monitor their progress

-complete a final assessment at the end – discuss their experiences, how they developed and reached their goals
